

# Extension

# Snail Race

What was the mean time of all your snails? (Mean = Total time divided by the number of snails)

-----

How long would it take the quickest snail to finish a 120cm race?

-----

How far could the slowest snail travel in 2 minutes?

-----

How many metres could the fastest snail travel in 300 seconds? (100cm = 1m)

-----

Why do you think the winning snail won?

-----
