

FACT & OPINION

Outdoor Activity

TEACHER GUIDE

LITERACY: FACTS & OPINIONS

AGES 7 - 9, 10 - 12

This outdoor 'facts and opinions' activity is great as a starter or main activity for your non-fiction texts lesson. It will encourage them to think carefully about the differences between facts and opinions as they produce their own statements with about your outdoor area.

Students will go to your outdoor area (this can also be done inside) and complete the table by writing facts in the left column and opinions in the right column about the area you are using. This activity is great when done both in pairs and individually.

FACT & OPINION

Outdoor Activity

NAME: _____
LITERACY: FACTS & OPINIONS

Complete the table by writing facts in the left column and opinions in the right column about the chosen area.
