Ages 4 - 6, 7 - 9

SCIENCE / LITERACY: SENSES, DESCRIPTION

This is a nice activity to explore the world around us through our 5 senses. It's great if you're looking at the human body in science or setting descriptions in literacy.

Students will head outside and complete the differentiated sheets as they explore your outdoor space through their 5 senses. It can be nice to do this activity a few times throughout the year in different seasons and weather.
