

Name: _____

Have you ever wondered why sometimes your shadow is huge and other times it's almost completely gone? Well, we're going to investigate exactly that by looking at the length of our shadow every _____ minutes throughout the day.

HUMAN SUNDIAL

Equipment we will need:

To keep this investigation fair, we must keep the following the same:

I think that as times goes on my shadow will _____

Fun sun fact!

One million Earths could fit
inside the Sun!
