

MATCH THE SOUND

TEACHER GUIDE

Ages 4 – 6

Literacy: Phonics – Phase 5

- Activity Length: 20 minutes
- Activity
- Individual / pairs

Equipment: word cards, sound cards

Curriculum Links

Literacy: phonics (phase 5)

Activity Description

This phonics phase 5 activity can add some good variety to your sessions. It will give the students loads of practice at decoding words and recognizing the sounds within words. For this activity students will head outside on the hunt for word cards before taking them back and placing them on the correct sound map. This resource contains phonics phase 5 sounds.

Teaching Structure

- Hide the word cards around your outdoor space
- Go through the sound mats for the appropriate phase/s to check they are fluent with all of the sounds.
- Explain that they are going to go and hunt the word cards, bring them back, and place them on the correct sound map.
- You can add your own twist to this activity, adding competitive elements, getting them to use the words they've collected to write some sentences, or anything else you can come up with!
