

Outdoor PHOTO Challenge

TEACHER GUIDE
Ages 4 – 6, 7 – 9, 10 – 12
MISC: PHOTOGRAPHY, NATURE

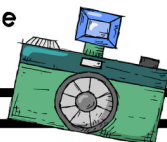

This is a great challenge to set as home learning, use for distance learning, or as a home holiday project. It will get your students outdoors and exploring and enjoying the nature around them.

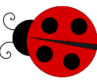

For this activity students must try to complete the photo challenge by getting a photo of all the things specified on the worksheet.

This is a free version of a bigger resource. For more photo challenges and the digital version check out the other resource in our store.

Tick off the boxes once you have snapped the pic.
