

# Take2

## Subtraction Game

### - - Teacher's Guide - -

In this active math lesson your students will use subtraction with carrying to work out whether they are better at certain activities first or second time around. They will complete each practical activity twice, working out the difference between their scores using column subtraction or different preferred method.

**This resource contains 3 levels of differentiation.**

Diff. 1: Whole number subtraction

Diff. 2: One decimal place subtraction

Diff. 3: Two decimal place subtraction

**Resources needed:**

- Activity sheets
- Timers
- Tape measure
