

Name: _____

----- THE CHALLENGE

**THE
STICK
PLATFORM**

STEM LEARNING

Your challenge is to create a platform off the ground to hold as much weight as possible using only sticks and string. You will be given a chance to plan, build, and test your platforms before entering them into the final competition to see which platform can support the most weight.

For this activity you will be working in teams. Once you are in your team, fill in your team name and team logo in the space below.

Good luck!
