

Name: _____

Who Eats WHAT?

Complete the table by finding some different animals then looking at them, and the area around them, carefully to find evidence about what they might eat.

To complete the last column, use books or the internet to see if you're correct.

Animal	What you think they eat	Evidence	Correct (✓ or ✗)

Which animal would you rather be and why?

Choose one of your animals and list other things it eats that you have found out from your research.
